PROFILE

Motivated and detail-oriented Software Developer with extensive experience in AWS, Java, and React Native, complemented by solid knowledge in Next.js, Vue.js, and .NET. Proficient in designing and implementing robust, scalable web and mobile applications. Strong problem-solving skills with a passion for learning new technologies and optimizing code for performance. Adept at working collaboratively in agile environments to deliver high-quality software solutions.

WORK EXPERIENCE

Data Analyst

- Sprout Technology (Cloudfactory)** 03/2018 - 08/2021
- Annotated and labeled large datasets of images for object detection and recognition tasks.
 - Ensured high-quality data by performing regular quality control checks on annotated images.
 - Utilized annotation tools and software to accurately mark objects within images.
 - Analyzed annotation results to identify patterns and provide feedback for model improvement.

Internship

- BrainDigit IT Solutions** 07/2021 - 10/2021
- Completed a 3-month Dot Net internship

Software Developer

- Arhant Solutions Pvt. Ltd** 12/2021 - 12/2022
- Developed and maintained RESTful APIs using C# and ASP.NET, ensuring seamless integration with front-end applications.
 - Created, optimized, and managed SQL queries and stored procedures in SQL Server to support data-intensive applications.
 - Developed and maintained webforms for user interactions and data input, ensuring a smooth and responsive user experience.
 - Created comprehensive documentation for developed APIs, stored procedures, and other application components to facilitate future maintenance and updates.

Software Developer

- ConvergeStack Pvt. Ltd** 01/2023 - 08/2024
- Developed and updated APIs using Java enhancing backend functionality with documentation.
 - Consumed .NET APIs using Next.js, integrating backend services into web applications for comprehensive functionality.
 - Designed and implemented an in-house project utilizing AWS and Next.js, delivering a robust and scalable cloud-based solution.
 - Developed a mobile app using AWS and React Native, providing a cross-platform solution with a seamless user experience.
 - Leveraged various AWS services, including Lambda for serverless computing, S3 for storage, AppSync for GraphQL APIs, CloudFront for content delivery, CloudWatch for monitoring, and Amplify for application development.
 - Designed and implemented cloud architectures using AWS services, ensuring scalability and reliability of applications.

09/2024 - Present

Software Developer

RenderBooking Pvt. Ltd

- Developed and updated mobile application using react native expo , providing a cross-platform solution with a seamless user experience.
- Consumed Laravel APIs, integrating backend services into mobile and web applications for comprehensive functionality.
- Nepali Payment Gateway Integration.
- Leveraged firebase services for push notifications.
- Implemented deep linking.
- Developed using offline first approach deployed app in play store later.
